[3d Create Visual Components Crack](#)

```
import Component from './component'
import { domReady, isTesting } from './utils'

const Alpine = {
  start: async function () {
    if (!isTesting()) await domReady()

    this.discoverComponents(el => {
      this.initializeComponent(el)
    })

    // It's easier and more performant to just support TurboLinks than listen
    // to MutationObserver mutations at the document level.
    document.addEventListener("turbo:load", () => {
```
